

DiCo-NLI

SemEval 2027 SharedTask: DiCo-NLI - Directional Consistency in Fine-Grained NLI

Multilingual · Fine-grained Natural Language Inference · Directional Consistency and Interpretability

Can your model keep meaning direction straight?

predict the relation · reverse the pair · keep the logic consistent

Everyone is hungry

FORWARD

Someone is hungry

Someone is hungry

BACKWARD

Everyone is hungry

Evaluation rewards both fine-grained relation prediction and directional consistency.
